What to look for after completing the Flor• Essence 30-Day Purification Program:

- Brighter complexion*
- Less swelling*
- Improved energy*
- Deeper sleep*
- Improved digestion and elimination*
- Less gas and bloating*

Description

The Ojibwa believed the herbs in Flor•Essence joined to form a “unified spirit” that created a much greater purification affect and placed their bodies in a balanced state of health. Of course today we know this to be the synergy of the Flor-essence formula that supports the body’s natural cleansing and healing mechanisms by supporting all of the body’s detoxification pathways (immune system, digestive, circulatory, liver, kidneys, skin and lungs). The cleansing and healing synergy of the phytonutrients and antioxidants of Flor•Essence is unmatched. Phytonutrients in the herbs work together to support specialized cells in the body that identify and gather harmful toxins at the cellular level and in the circulatory system and transport them to the excretory organs where other supporting antioxidants and fiber can neutralize and bind the toxins to escort them out of the body.

Directions

A simple cup of tea, taken as a tonic every day, can easily become an integral part of your daily routine. Flor•Essence is most effective as a consistent habit. Drink a warm, soothing cup of tea morning and night. The beauty of this liquid tea is that the dosage can easily be adjusted to your body’s needs.

Product Highlights

A blend of 8 herbs – certified organic and grown by Flora on their own farms whenever possible Unrefined, full-spectrum herbs balance the body so it can heal itself Traditional aqueous preparation for maximum absorption Safe for long-term, daily use All ingredients stringently tested for purity, quality and potency Alcohol- and reservative-free.

Warnings

You may start to notice changes in your body. If the following symptoms arise, be sure to rest and drink lots of water to assist the clearing out of toxins. These temporary reactions are normal if slight to moderate in intensity:

- Headache
- Mild diarrhea
- Nausea
- Skin blemishes
- Runny nose

If symptoms are severe and prolonged, reduce your dosage and proceed more slowly.
