The practical result is that bilberry extract improves night vision, visual acuity and helps maintain the health of the eyes under stressful conditions and as we age. In European herbal medicine, bilberry fruit preparations are now used to enhance poor micro-circulation for eye conditions such as night-blindness and diabetic retinopathy.

Bilberry Extract plus Blueberries. Researched natural vision-enhancer that works from within. Over 30 years of research have proven the remarkable ability of bilberries to support the health of the eyes. In the eyes, bilberry increases the flow of blood, nutrients and oxygen through the dense network of tiny blood vessels called capillaries, while reducing free radical damage in the eye to protect against degenerative problems such as macular degeneration and cataract formation.

### What's Unique about Bilberry Extract?

#### Potent Ingredients

Each capsule contains potent levels of 250mg of high quality bilberry extract, standardized to contain 25% anthocyanins, in a base of 100mg of natural, freeze-dried blueberry powder. Next to bilberries, blueberries are the best food source of anthocyanins. The naturally occurring bioflavonoids contain a broad spectrum of anthocyanins, which are potent antioxidants.

#### Exacting Quality

The bilberry extract is of the highest quality available, and guaranteed to contain 25% anthocyanins. It is encapsulated at Flora, using state-of-the-art technology in a controlled environment. The natural blueberry base is lyophilized (freeze-dried) to preserve the active ingredients and improve shelf life. Non-animal source, easy to digest Vegicaps® are used, along with light-resistant, recyclable amber glass bottles. Bilberry Extract is a non-toxic food product with no unwanted side effects. It is produced in accordance with the Canadian government's Good Manufacturing procedures. The qualities to note are listed below:

#### Therapeutic strength.

250 mg of high quality bilberry extract (1:100). Standardized to contain 25% anthocyanins, which is equivalent to 36% anthocyanosides. Contains a full spectrum of bioflavonoid antioxidants. Contains 3 to 12 times as much bilberry extract per capsule as most other bilberry products. In a base of 100 mg of natural, freeze-dried blueberry powder supplying anthocyanins. A powerful antioxidant complex. Non-animal source.

#### Directions

Take 1 capsule in the morning and 1 capsule in the evening with meals.

**Product Highlights**

- Helpful for diabetics wanting to treat or prevent retinopathy.
- Used to treat or prevent poor night vision.
- Insurance for people with a history of eye disease in their family.
- Aids people with lower limb venous insufficiency and conditions of capillary fragility.
- Helpful for those wishing to reduce itching, inflammation and swelling of surgical removal of hemorrhoids.
- Reduces eye strain caused by computers.
- Beneficial for the elderly.
- Strengthens capillaries.
- Improves skin tonicity.
- Increases the production and integrity of collagen

**Warnings**

Store in a cool, dry place.

Security sealed for your protection. Do not use if seal is missing or damage
