#### Flor Essence

Powerful synergy of eight natural ingredients including:

- Burdock Root

Fiber can absorb 10 to 15 times its weight in water, so adding even more fiber to an already dehydrated body will only worsen constipation.

Pro Essence flushes harmful toxins out of the kidneys, bladder and urinary system, enabling the body to work with maximum efficiency.\*

#### FloraLax

FloraLax for complete colon cleanse\* Made from certified organic flax seeds, oat bran and psyllium husks, FloraLax promotes the enhanced elimination of toxins through the digestive system.\*

The fact is that dietary fiber cannot be digested by human enzymes. As a result, only a small amount of fiber is metabolized in the stomach and intestines.

Most of the fiber actually moves through the gastrointestinal tract, gathering different substances such as cholesterol, sugar, toxins, heavy metals, bile and other contents on its way to the colon.

A high-fiber diet will help maintain a healthy digestive tract and improve nutrient absorption for greater health and vitality.

Loaded with bulk-forming fiber, FloraLax helps maintain regular bowel movements as it removes unwanted content and toxic waste from the body.\*

**IMPORTANT:**

Plenty of water (at least 8–10 eight ounce glasses per day) must accompany Pro Essence and FloraLax in order to maximize the effectiveness of Flor Essence herbal tea in flushing out toxins and waste.

Fiber-bulking action has a satiating effect that helps manage hunger and weight gain by reducing total caloric intake.
