Udo's Choice Super Bifido Plus Probiotic consists of 10 strains of beneficial bacteria and contains 70 billion viable cells per capsule (at date of manufacture). This potent adult formula has a high concentration of bifidobacterium strains, balanced with lactobacillus strains, to support large intestine health and help restore friendly bacteria populations.* Udo's Choice Super Bifido Plus Probiotic assists in providing relief from occasional constipation or irregularity.* It is also ideal for travelers to maintain healthy flora while away from home.*

Directions

To restore healthy flora: 3 capsules daily on full stomach. To maintain healthy flora: 1 capsule after breakfast.

Product Highlights

- Balanced support for colon health*
- 70 Billion Viable Cells
- Dietary Supplement

Warning

As with any dietary supplement, consult a physician if taking prescriptions or if you have a medical condition. Keep product refrigerated. Can be frozen to prolong shelf life.

Dr. Udo Erasmus, PhD
